Rohit Gannote

Full Stack Web Developer

Email: rohitgannote@gmail.com | Experience: 2.5+ Years | Role: Full Stack Web Developer

PROFESSIONAL SUMMARY

Full Stack Web Developer with 2.5+ years of hands-on experience architecting scalable, high-performance web applications using Laravel 11, PHP 8, MySQL, and modern frontend tools. Demonstrated expertise in designing normalized relational schemas, RESTful API platforms, asynchronous queue processing with Redis, and custom administrative enterprise systems.

CORE TECHNICAL SKILLS

Backend & APIs:	Laravel 11/12, PHP 8.2+, RESTful API Design, Sanctum Auth, MVC Architecture
Database & Cache:	MySQL 8.0, Redis 7 \(Cache & Queues\), Composite Indexing, Query Optimization
Frontend & UI:	Tailwind CSS, Alpine.js, Blade Components, JavaScript \(ES6+\), Responsive UI
DevOps & Tooling:	Git, GitHub Actions, Docker, Apache/Nginx, Linux Server Administration, Composer

WORK EXPERIENCE & HIGHLIGHTS

Full Stack Web Developer | Commercial Projects & Client Solutions

2023 - Present

* Engineered multi-vendor e-commerce platforms and real-time revenue analytics dashboards in Laravel.
* Designed robust RESTful APIs with sub-50ms response times, token authentication, and rate limiting.
* Implemented composite database indexing and query optimization, eliminating N+1 bottlenecks.
* Built role-based access control \(RBAC\), multi-tenant permissions, and automated email workflows.
* Deployed asynchronous background jobs via Redis queues for invoice generation and third-party sync.

FEATURED COMMERCIAL PROJECTS

1. E-Commerce Analytics & Multi-Vendor Hub

Tech: Laravel 11, MySQL, Tailwind CSS, Redis | Role: Full Stack Lead Developer

Live analytics dashboard, automated inventory tracking, and secure payment processing.

2. TaskFlow - Agile Team Workspace & Kanban Platform

Tech: Laravel, Alpine.js, MySQL, Tailwind CSS | Role: Full Stack Developer

Interactive Kanban boards, sprint burn-down charts, and granular role permissions.

3. Nebula Gateway - High Throughput API Service

Tech: Laravel 11 REST APIs, Redis, MySQL | Role: Backend Systems Engineer

Sub-50ms API response latency, Redis token caching, and automated audit logging.

EDUCATION & PROFESSIONAL TRAINING

Intensive Full Stack Web Development Training \(6 Months\)

Deep specialization in Modern PHP, Laravel architecture, database design, and production security.
